

Dear newsletter readers!

ICES 10th anniversary conference

The conference was very much appreciated by the people attending and the speakers. Since this was the 10-year anniversary conference, the dinner was at Syster o Bror, food and entertainment was delicious!

Annika Steiber in her speech using Skype from sunny California!

The band playing during the anniversary dinner!

OSLC and Linked Data Unconference November 5th

The first conference on OSLC & LinkedData (OSLCFest) will take place in Stockholm on November 5th & 6th, 2018 at the KTH Royal Institute of Technology. OSLCFest will showcase the latest in technology to connect data across silos using standard APIs. The event will bring together experts in ALM/PLM/MBSE with experts in APIs, Linked Data, graph databases, and query languages.

As keynote speakers, John Wiegand, former Chief Architect at Rational and one of the "fathers" of OSLC, as well as Mike Amundsen, internationally known author and

Hypermedia API expert, as well as Prof. Soeren Auer, contributor to substantial semantic technologies such as DBpedia, will share their unique perspective on OSLC.

Coffee with an expert * 2

This seminar series is aimed at giving an update on a topic from research or industry and doing so in a relaxed context. The presentation itself is about 45 minutes and after this coffee is supplied and discussion expected. The event is open and free but seats are limited – registration is mandatory.

[October 25th](#) we have two speakers.

Didem Gürdür, PhD student KTH, talking about "Digitalizing Swedish Industry: What is

Next? - Data Analytics Readiness Assessment of Swedish Industry According to Survey Results". **Serge de Gosson de Varennes, SopraSteria** will be talking about "Using advanced analytics to create value from digitalisation in Swedish Industry"

[November 22nd](#) Jörgen Clevenjö from Sandvik Coromant and Jens Ohlsson from EIT Digital Sweden will talk about innovating the manufacturing industry by machine learning & edge computing. In this Coffee with an Expert Jörgen and Jens presents and discusses what it takes behind the scenes to build a scalable service enablement platform like Sandvik Coromant's CoroPlus®. They will present key learnings and take-aways with focus on:

- Edge Computing and decentralized architectures
- Change management and implementation of "seeing is believing" projects
- How IoT becomes part of business models when real-time becomes a reality in more and more applications
- The generic aspects of Service Enablement Platforms and The paradigm shift in integration techniques

The events in the Coffee with an expert series is open and free of charge
