

Dear newsletter readers!

ICES was started in 2008 and 2018 will be a year of celebration, retrospective and planning for the future. The main celebration will take place in early September but the entire year will be coloured by the anniversary.

FED4SAE – Open call ends February 6th

First open call for Application Experiments – Up to €60K funding, technical and business coaching available to support European companies to develop smart applications. Apply before February 6th.

More info: <https://fed4sae.eu/innovative-projects/open-calls/>

Workshop in System Engineering - Managing the challenges of tomorrow's software intensive systems March 13th 9:15-15:30

[System engineering workshop](#) around the following open questions:

- Will current SE practices suffice? What need to change?
- Is the system software intensive or is it a software system?- How to manage extra-functional properties such as safety and security in rapidly evolving systems in rapidly evolving environment?
- Research directions

Software testing – one day course

The much appreciated test course is back, it is a one day course on Software Testing - Fundamentals and Emerging Technologies. Date: **March 22nd** 2018. For registration and more information see the [event](#) on ICES homepage. This event is open and there is a discount for members.

SCSSS - System & Software Safety Conference May 21st to 22nd.

The 2017 Safety conference was a great success and the program for the 2018 is not yet released but we can disclose that key notes will be:

Professor Peter Bernard Ladkin Bielefeld University – Assurance Points in Software Development

Dr Håkan Sivencrona, Zenuity – Safety of intended functionality - Status, open issues and ways forward

Professor John McDermid, University of York – Safety of Autonomy: Challenges and Strategies

M.Sc. Jonathan Roberts, Rolls-Royce – Cyber-Risk Assessment Framework encompassing safety and security

[See the 2018 conference link here!](#) The event is open but there is a conference fee. See the [summary](#) and pictures from 2017.

ICES 10th anniversary conference

ICES has soon been active as a center for 10 years! We will celebrate with activities in two days September 6th to 7th. First day with a management focus and second with more technical content. More information to come!

See the [ICES event calendar](#) for an updated list of events
